

THE REGIONAL BUREAU OF SPATIAL PLANNING IN WROCŁAW

EUREGIA 2008,
the platform for cross-border communication

Where and what are we? About WBU

- WBU has been an independent unit of the Self Government of Lower Silesia Region in Poland since 1999.
- however the history of the Office dates back to the fifties of the last century

THE LOWER SILESIA REGION

AREA:

200 000 km²

INHABITANTS:

almost 3 mio

THE CAPITAL:

Wrocław

Where and what are we?
About WBU

- The main purpose (mission) of WBU is to realize the spatial politics of the Self – Government of Lower Silesia region, also to prepare many planning documents covering the most strategic fields of the spatial politics in the region including trans-regional and transnational areas.

- WBU has implemented the Spatial Information System to improve handling of the vast amount of information resources. GIS also allows systematic update of data for Spatial Development Plan of the Dolnoslaskie Voivodeship.

Where and what are we?
About WBU

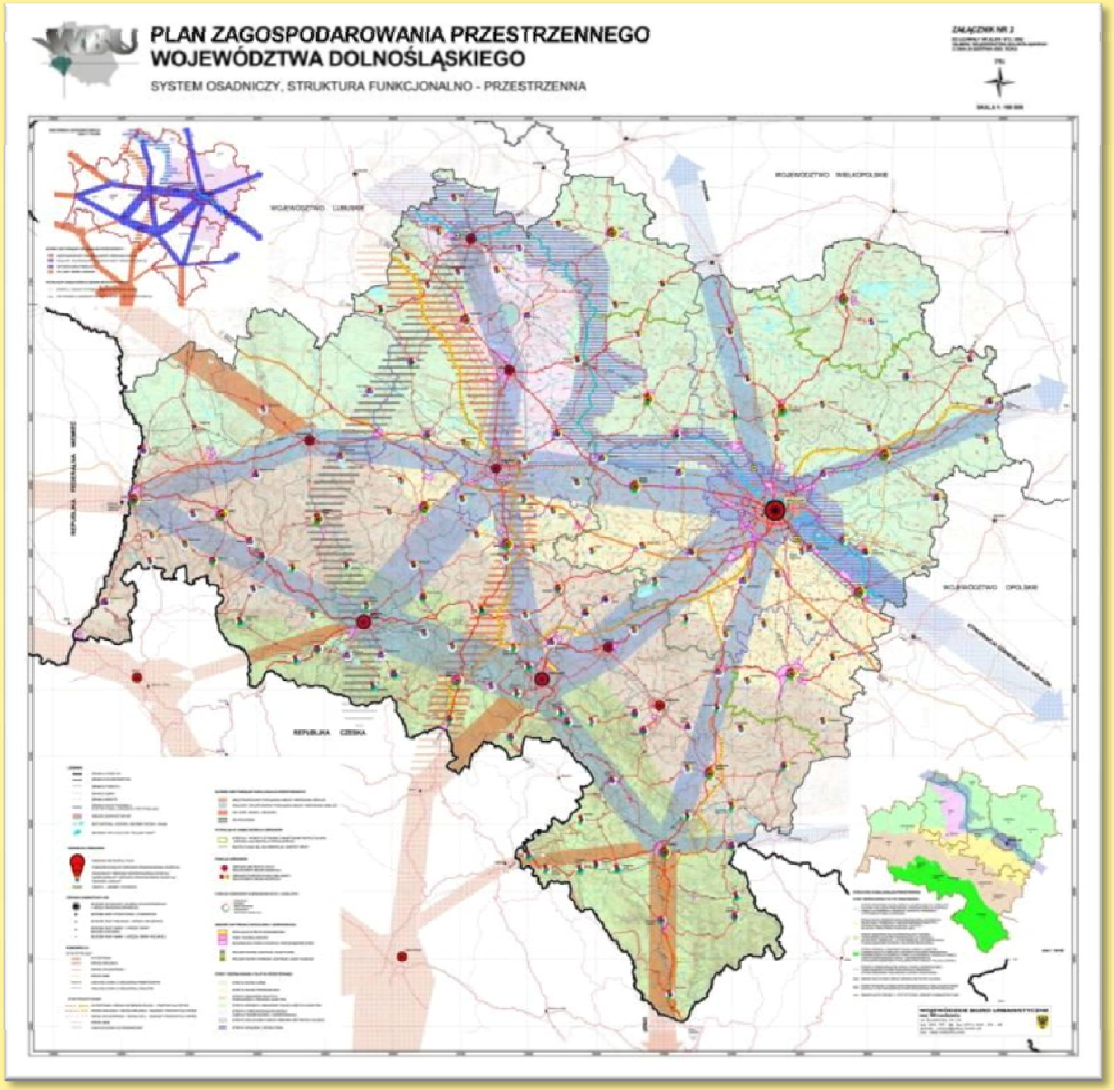

- WBU is a consultative body responsible for the control of planning activities in the region. The Implementation Unit of the Bureau formulates the opinions of all the local plans in the region. There is a possibility to call the forum of independent consultants in the most specific or strategic cases.

- Major planning documents and studys:
  - The Spatial Development Plan for Lower Silesia;
  - The Spatial Development Study of the Sudety Mountains Route;
  - The Land Development Study of the Odra River Zone - THE SYNTHESIS;
  - The Ecophysiographical Study of Dolnoslaskie Voivodeship
