

Animal Register – Slovakia

Workshop on Agriculture Information System and Statistics

Danilovgrad, Montenegro, 24. 3. 2011

Ing. Ladislav Hána

Annual incidence rate* of BSE in OIE Member

EU legislation

Regulation (EC) No 1760/2000 establishing a system for the identification and registration of bovine animals and regarding the labelling of beef and beef products. Repealed Regulation (EC) No 820/97.

- System was obligatory from 1.1. 2000.

Commission Regulation (EC) No 911/2004 implementing Regulation (EC) No 1760/2000 of the European Parliament and of the Council as regards eartags, passports and holding registers (amended by No 1792/2006).

„no animal after access may be moved from a holding unless it is identified in accordance with the provisions of this regulation’s“!!!

EU legislation

Regulation (EC) No 1760/2000

- animal
- holding
- keeper
- competent authorities

System for identification and registration consist from these main parts:

- ear tags to identify animals individually,
- animal passports,
- computerised databases,
- individual registers kept on each holding.

Commission and the CA of the MS shall have access to all this information.

EU legislation:

Bovine ear tags:

- shall contain name, code or logo of the CA,
- shall be of flexible plastic material,
- tamper-proof and easy to read,
- shall not be re-usable,
- length of the ear tag shall be at least 45 mm,
- width of the ear tag shall be at least 55 mm,
- characters shall have a minimum height of 5 mm.

EU legislation:

Ear tags:

- shall be applied within a period to be determined by the Member State as from the birth of the animal (not longer than 20 days),
- shall be applied in any case before the animal leaves the holding on which it was born,
- animal from another Member State shall retain its original ear tag,
- no ear tag may be removed or replaced without the permission of the competent authority,
- ear tags shall be allocated to the holding where animal was born.

Samples of eartags used at SK

EU legislation

Passports shall contain

- **information referred to Directive 64/432/EEC**, on animal health problems affecting intra-Community trade in bovine animals and swine
- signature of keeper ('s),
- name of issuing authority and date of issue.

The temporary passports shall be used for calves under 4 weeks of age.

Passport shall be returned to CA in case of dead, slaughter or export of the animal to third country **by the last keeper.**

Comp. Database

-each MS shall set up a computerised database in accordance with **Directive 64/432/EC (Articles 14 and 18)**,

For each animal:

- identification code,
- date of birth,
- sex,
- breed or colour of coat,
- identification code of the mother or, in the case of an animal imported from a third country, the identification number given following inspection under Directive 92/102/EEC and corresponding to the identification number of origin,
- identification number of the holding where born,
- identification numbers of all holdings where the animal has been kept and the dates of each change of holding,
- date of death or slaughter.

Comp. Database

For each holding:

- an identification number consisting of not more than 12 figures (apart from the country code),
- name and address of the holder.
- GIS location of holding,
- Controls at the holding by CA,
- Statute of the holding,
- Type of animals that are at the holding.

Comp. Database

Eqidae

- if applicable, at least the last 15 digits of the code transmitted by the transponder, or the code transmitted by a radio frequency identification devise,
- the status as registered equidae or equidae for breeding and production;
- the name of the animal (birth name and where applicable the commercial name);
- the known status of the animal as not intended for slaughter for human consumption;

- 
- **COM. REG. 1505/2006 implementing Council Reg. 21/2004 as regards the minimum level of checks to be carried out in relation to the identification and registration of ovine and caprine animals.**
 - **Com. Reg. 504/2008 implementing Council Directives 90/426/EEC and 90/427/EEC as regards methods for the identification of equidae**

National legislation:

- law **39/2007** about veterinary care,
- gov. decree **305/2003** about animal identification and registration,
- gov. decree **280/2003** about health problems that could affect trade with bovine animals and pigs,
- decree MoA **371/2007** about identification and registration of sheep and goats,
- decree MoA **372/2007** about identification and registration of bovine and ovine animals and changes at decree of MoA **206/2007** concerning classification of bovine and ovine carcasses and training of classifiers,
- decree MoA **407/2007** about identification and registration of pigs,
- decree MoA **42/2010** about identification and registration of equidae,

Comp. Database at Slovakia

Central evidence of Farm Animals was developed by company AXON PRO on request of MoA SR at 2002.

System consist from modules:

- Evidence**
- Output reports**
- Tools**
- Help**

Farmer could access online to the system after registration with login and password.

Information's from CAR

- animals:
 - type of animals
 - breeds,
 - location
- subjects:
 - type of subjects,
 - type of holdings,
 - GPS location of holdings,
 - details concerning to holdings,
- veterinary situation:
 - figures concerning disease situation,
 - vet controls (holdings, animals),
 - type of controls and results,
 - statute of holdings,
- Monthly figures concerning moving of animals.

Figures from SK Animal register

Holdings by type of animals	28.02.2011
Bovines	22 545
Pigs	7 372
Ovines	6 680
Caprines	1 983
Poultry	766
Ostrich	106
Horses	1 703

Holdings by types		28.02.2011
No. of reg. holdings		35 017
No. of activ reg. holdings		31 967
from it:	holdings with farm animals	31 239
	slaughterhouses	141
	exporters	104
	sanitation companies (cadavers, SRM)	3
	Exhibition places	7
	vet hospitals	1
	Market places	41
	observation (quarantine) places	2
	traders	52
	open air farms (pastures)	347
	state veterinary institutions	7
	collecting places	22

Figures from SK Animal register

No. of live animals	28. 2. 2011
No. of live bovines	475 424
No. of live ovines	407 169
No. of live caprines	9 509
No. of live pigs	539 084
No. of live sows	40 124

FARMER ACCESS

- is a complex system of registration and access to information that are meant exclusively for farmers that are registered in the CRFA,
 - access to detailed info about own farm and
 - basic info about other holdings
- information regarding the users of farms,
 - about owners/keepers,
 - regarding vet visits,
 - about the animals
 - movement to and from farms
 - inventory of animals and
 - exports of data

One important function is also sending farmer's message in **xml format**, registering the list of messages and details about individual messages.
