

Sustainability of Participatory Approach in Drina-Tara Region

Gert Guri
School on Local Development
University of Trento

Multilayered mechanism

- Drina-Tara network of local stakeholders
- National level (representatives of ministries and experts)
- Inter-state (SWG)

Stakeholders Group

- Local stakeholders network supported by local coordinators
 - Further development of the project proposals
 - Finalizing a Rural Development Strategy of the Drina Tara Region
 - Regular meetings of SG members
 - Website and public activities
 - MoUs with the municipalities in the Drina Tara Region

National level

- Coordination of activities with national experts/ representatives of the three countries
- Harmonization of local & national strategies
- Possible financial support for project proposals
- Support for improving cross-border legal framework

International level

- SWG acts as an international umbrella offering:
 - International and local expertise;
 - Support for improving national cross-border legal framework;
 - Contacts with international donors
 - Regional/International promotion of this initiative

Thank You
