

Photos from the presented boards

Aim of the meeting:

▷ to discuss on future steps for the regional coordination of joint water and forestry management in SEE

Focus of the meeting:

- presentation & discussion on the EU forest strategy and the climate change and impact on water resources
- presentation and discussion on successful examples on sustainable forest management
- presentation and discussion of Regional Project concepts on joint water-forestry management in SEE
- drafting a Road Map towards enhanced regional planning & coordination
- discussion and cooperation with possible partners, stakeholders and donor community

Discussion/Review of the Project Concepts

Consider
the participation
of Government
in financing

be realistic

1 Ecosystem services in the SEE region

Project budget
to be allocated

Clarification
on the issue →
Pests schemes

Level of
involvement of resp
institutions forest

Which methodo-
ologies will be
used for evaluation
of ESS

Include Inter-
cooperation &
stakeholders

2 Harmonization of risk assessment methods on erosion and torrents

Scientific or
expert approach?

Consider the
experts from existing
national services

Available/
existing
methodologies

Better to
select pilot
sites at the last
project phase

Is the time-frame
sufficient for
providing data?

and creating

3 Flood Management in SEE

Regional
management from
rather than
on Internet

Focus on
flood management
in river basin
areas

where forests
are involved

Consider the
responsibilities
(business sector)

Land management
and afforestation
to be incorporated

All water
basins are affected
by human influence

Are/should
the small river?
basins be considered?

4 Recognising social, ecological and economic benefits from protective forests in SEE countries

Social
element?

✓ be in line
with all 3 dimensions
of sustainability
economic
social &
environmental

How many
and which
pilot areas
to be
chosen for
in field action

Additional questions to be discussed:

? Additional involvement for
finalizing the Project Concepts
needed - PC No 2 - include Serbia
& Austria
- comments are welcomed by
the teams!

? Assistance with the Project
Concepts budgeting needed

Proposals: Organize a study tour
on know-how successful
examples... Logical
time-frame, framework
